Health Examination Referral Letter

Date: 21 October 2024
Application ID (TRN): EGO0482915
HAP ID: HAP7740125

Dear Haruto Tanaka,

The Department of Home Affairs has asked that you undergo health examinations as part of your Partner visa application (subclass 820/801). This letter authorises you to attend an approved panel clinic using the HAP ID shown above.

Examinations required
- Medical examination (completed by a panel physician)
- Chest x-ray (required for applicants aged 11 years and over from a relevant location, or where otherwise requested)
- HIV test (applicants aged 15 years and over)

Where to attend
Sydney City Medical Examinations (panel clinic), Level 2, 140 Sample Road, Sydney NSW 2000. Telephone 02 5550 0233. You must take your passport (number TR9004127), this letter and a printed copy of your HAP ID details. Appointments are required.

What to expect
Results are sent directly by the clinic to the Department. You do not need to send them yourself. Results are generally finalised within 14 days of the examination. You should not tell the clinic you have a particular outcome in mind.

Time limit
You should complete your examinations as soon as possible, and within 28 days of this letter, to avoid delays in processing. Your agent, Priya Raman (MARN 9910042), has been copied on this referral.

Signed
Health Assessment Unit, Department of Home Affairs (fictional replica)
